(b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

Income Statement

Profit after tax for the half-year stood at US\$30.0 million, a decrease of 15.0% as compared to US\$35.3 million in the previous corresponding period. The following review sets out the factors that affected profit after tax for the period:

Revenue

Revenue increased by 5.2% to US\$214.5 million for the half-year due mainly to higher revenue generated by the hotel segments and property development segment as a result of improved RevPAR and land disposal respectively. However, volatility in the gaming sector continues to affect overall revenue performance.

Bass Strait oil and gas royalty

Bass Strait oil and gas royalties decreased by 12.5% for the half-year due to lower average crude oil prices and lower oil and gas production as compared to the previous corresponding period.

Gain on disposal of investments/ assets

Gain on disposal of investments / assets was mainly due to sale of a casino licence by Clermont Leisure UK in the current period.

Other operating income

Other operating income decreased from US\$10.3 million to US\$7.2 million for the half-year due mainly to the one off compensation received from a lease termination in the hotel segment in the previous corresponding period.

Direct costs of raw materials, consumables and services

The increase in direct costs of raw materials, consumables and services by 1.7% for the half-year was mainly due to the bringing in-house of F&B operations at one of the hotels as well as the increased cost in hotel operations in line with the increase in revenue from the hotel operations during the period.

Personnel expenses

The increase in personnel expenses for the half-year was mainly due to the recruitment of additional hotel management and operations staff for the on-going transformation and rebranding exercises in the UK.

Other operating expenses

The increase in other operating expenses for the half-year was mainly due to higher marketing and consultancy fees in the hotel segment related to the on-going rebranding initiatives as compared to the previous corresponding period.

Depreciation

Lower depreciation for the half-year was mainly due to certain fixed assets having been fully depreciated in the current period.

Net financing costs

Lower financing costs for the half-year were attributable to lower outstanding bank borrowings as compared to the previous corresponding period. Taking into account lower finance income recorded in the current period, overall net financing costs were in line with those for the previous corresponding period.

Income tax expense

The decrease in income tax expense was mainly due to lower tax provision on lower royalty income received during the period.

Statement of Comprehensive Income

Total comprehensive income for the half-year was US\$95.3 million. This included a net foreign exchange translation gain of US\$65.2 million as a result of translating the books of the Group's UK subsidiaries and which are denominated in GBP into the Group's reporting currency, which is USD. The GBP as at 31 December 2013 appreciated against the USD by 8.3% respectively as compared to 30 June 2013.

Statement of Financial Position

The Group's net assets before non-controlling interest increased by 6.7% from US\$1,106.5 million as at 30 June 2013 to US\$1,180.8 million as at 31 December 2013, mainly attributable to internal accruals during the period as well as the net foreign exchange translation gain referred to above.

Excluding the effects of currency translation, other significant factors that affected the Group's net assets as at 31 December 2013 were as follows:

- a) Trade and other receivables – decrease was primarily due lower trade receivable and prepayments for both the hotel and gaming segments during the period.
- b) Assets held for sale – decrease was due to completion of the sale of a casino licence during the period.
- c) Cash and cash equivalents – decrease was mainly due to repayment of short term borrowings, dividend payments and mortgaged debenture interest during the half-year.
- d) Short term loans and borrowings – increase was mainly due to the reclassification of mortgaged debenture from long term loans and borrowings, which is due in one year or less.
- e) Trade and other payables – decrease was mainly due to scheduled settlement of creditor liabilities.

- f) Corporate tax payable – increase was mainly due to tax provision on royalty income received and profit from land disposal during the period.
- g) Long term loans and borrowings – decrease was mainly due to the reclassification of mortgaged debenture to short term loans and borrowings.
- h) Provisions – decrease was due to actual pension payments made during the period.

Statement of Cash Flows

A negative net cash flow of US\$8.9 million was recorded for the half-year as compared with positive net cash flow of US\$8.6 million in the previous corresponding period. This was primarily due to repayment of short term bank debts and dividend payment.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The Group has not previously released any forecast or prospect statements.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Macro-economic factors such as increases in corporate spending, suggesting growth in demand from higher paying corporate segments of the demand base, has resulted in accelerating pricing power across our London estate. We expect our London hotels to continue to outperform hotels in other key European cities and UK regional properties alike. February 2014 sees the start of a major refurbishment programme across 5 hotels in our London estate. In the short term, the cost of such refurbishment as well as our re-branding initiative will impact on performance.
