Income Statement

Profit after tax for the quarter ended 30 September 2015 stood at US\$31.3 million, an increase of 90% compared to US\$16.5 million for the previous corresponding quarter. The following review sets out the factors that affected profit after tax for the quarter:

Revenue

Revenue decreased by 2% to US\$115.1 million quarter on quarter principally due to lower Bass Strait oil and gas royalty income. Lower average crude oil and gas prices and decline of oil production has negatively impacted the receipt of royalty income during the quarter. Apart from this, the weakening AUD against USD also affected the overall royalty earnings. However, this was offset by higher gaming revenue with improved gaming drop and win margin compared to previous corresponding quarter.

Hotel revenue was stable compared to same quarter last year as a result of improved RevPAR offset by the weakening of the GBP against USD.

Cost of sales

The cost of sales remain stable for the quarter mainly due to higher gaming duty associated with the increase in gaming revenue has offset by the impact of weakening GBP against USD.

Other operating income

The increase in other operating income for the quarter was mainly due to a one-off compensation received from the cessation of management 19 regional Thistle Hotels owned by a third party.

Administrative expenses

The decrease in administrative expenses for the quarter was mainly attributable to the weakening of GBP against USD.

Net financing costs

Lower financing costs for the quarter were primarily due to savings in interest cost resulting from the refinancing of mortgage debentures with a term loan in December 2014.

Income tax expense

The increase in income tax expense was associated with the increase in hotel earnings during the quarter, thus higher tax provision.

Statement of Comprehensive Income

Total comprehensive loss for the quarter was US\$9.9 million. This was due to a net foreign exchange loss of US\$37.7 million as a result of translating the books of the Group's UK subsidiaries and the Bass Strait oil and gas royalty rights which are denominated in GBP and AUD respectively into the Group's reporting currency, which is USD. As at the end of 30 September 2015, the GBP and AUD depreciated by 3% and 8% respectively against the USD as compared to 30 June 2015.

Statement of Financial Position

The Group's net assets before non-controlling interests decreased by 1% from US\$1,152.1 million as at 30 June 2015 to US\$1,142.3 million as at 30 September 2015. This was mainly attributable to net foreign exchange translation loss referred to above.

Excluding the effects of currency translation, other significant factors that affected the Group's net assets as at 30 September 2015 were as follows:

- a) Trade and other receivables – decrease was primarily due to lower outstanding debts and prepayments for the hotel segment during the quarter.
- b) Cash and cash equivalents – increase was due to a one-off compensation received from cessation of management 19 regional Thistle Hotels owned by a third party and the receipt of royalty income during the quarter.
- c) Short term loans and borrowings – decrease was due to lower outstanding overdraft during the quarter.
- d) Trade and other payables – decrease was mainly due to scheduled settlements of creditor liabilities.
- e) Corporate tax payable – increase was mainly due to tax provision on higher hotel earnings in the current quarter.
- f) Provisions – decrease was mainly due to a partial settlement for ongoing litigation.
- g) Pensions – Pensions surplus has exceeded the obligations resulting from actuarial gain during the quarter.
- h) Derivative financial liability – increase was mainly due to fair value adjustment for a forward interest rate swap contract.

Statement of Cash Flows

Net cash inflow of US\$42.6 million was recorded at the end of the quarter compared with US\$12.3 million in the previous corresponding quarter. This was primarily due to the timing difference on the receipt of royalty income, lower capital expenditures as well as the one-off compensation received from the hotel owners after the termination of hotel management contract during the quarter.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The Group has not previously released any forecast or prospect statements.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

The transformation of our hotels division is on track with overall hotel RevPAR for the quarter growing 11% against the same quarter last year. However a stronger USD compared to the same quarter last year continues to weigh down on hotel revenues in USD terms even as RevPAR continues to grow in GBP terms. The planned refurbishment program for our hotels continues to be implemented and this will impact rooms available for sale. The average occupancy rate for the London hotel market is not expected to change significantly in the near future.

We expect to launch the 2nd hotel under our Amba Hotels brand, the Amba Hotel Marble Arch, in the 4th quarter of 2015.

A significant decline in global oil prices coupled with a weaker AUD have adversely affected the Group's oil and gas royalty revenues. Oil and gas prices are not expected to recover in the coming year.
